

# MAXIMUS

OFF-GRID

## FAMILY OF UP TO 6 SEMI OFF-ROAD OR FULL OFF-GRID

### EVERYTHING A FAMILY NEEDS.

After a quick set-up when you reach your destination, relax and enjoy the ample space inside, or spend some time under the shade of your roll-out awning. The kids will have their own space to relax, with up to four comfortable bunks to sleep or spend a little time in. Adults will enjoy a spacious sleeping area with plenty of storage for all those little luxuries.

The Maximus Series is built for families that enjoy a caravan with all the comforts of home and a layout that provides each family member a space of their own to relax. The full kitchen and lounge area has plenty of space for five (or six!).
